Say No to Crackers – Celebrate Responsibly, Breathe Freely

Dear Parents,

The festive season is a time of happiness, togetherness and celebration. However, bursting firecrackers contributes to air and noise pollution, affects people with respiratory sensitivities, disturbs animals and creates unnecessary safety hazards.

As responsible members of society, we encourage parents to help children understand the importance of celebrating festivals in an environmentally conscious manner.

How Parents Can Make a Difference:

- **Lead by example:** Choose not to purchase or burst firecrackers and encourage family members to do the same.
- **Explain the environmental impact:** Discuss how crackers contribute to air pollution and poor air quality.
- **Be considerate towards others:** Help children understand that loud noises can cause distress to senior citizens, infants, patients and animals.
- **Choose meaningful alternatives:** Celebrate with diyas, lanterns, rangoli, flowers, family games and creative activities.
- **Encourage community participation:** Motivate children to spread awareness among friends and relatives about cracker-free celebrations.
- **Practise responsible disposal:** Ensure that festive decorations and other waste are disposed of properly.

November Family Challenge:

Celebrate a completely cracker-free occasion this month. Involve your child in decorating the house, making rangoli or organising an eco-friendly family celebration.

Let us teach our children that the true spirit of celebration lies in happiness, togetherness and consideration for the world around us.

Say No to Crackers, Yes to Clean Air and Happy Celebrations!

With Warm Regards
M.M. Public School
