MMPS/Circular/28/2019

Dated: -1.10.2019

Dear Parent,

Single use plastic drastically impacts the environment in a harmful way. After usage, it is almost dumped on land fill sites, choking the water supply and drainage system. Because of its non-biodegradability, it is very harmful for our environment. In compliance to our Hon'ble Prime Minister's call to make India free from Single Use Plastic, a nationwide campaign is going to be launched w.e.f. 2<sup>nd</sup> October'2019. We request all the parents to actively participate in this campaign by taking appropriate action to avoid use of single use plastic water bottles, plastic containers, polythene bags etc. Kindly discourage your children from using them both within and outside the school.

PRINCIPAL
