MMPS/Circular/06/2020

Dated: 19.03.2020

Dear Parents,

As we are aware that the COVID – 19 (Novel Coronavirus) is reported from China & other countries and there are a few travels related positive cases in Delhi also. Preventive measures are important to stop the spread of the disease. There is no need to panic.

However, the students of Nursery and Primary classes are too young to understand the risk associated with COVID – 19. Thus, they are more prone to infectious diseases. It will be good that they must be trained in the dos and don'ts of prevention from COVID – 19 under the care and supervision of their parents at their home.

Information in the form of a comic booklet is already shared which would come handy for parents to sensitize the students.
