“Celebrating 50 years of Excellence in Education”

MMPS/Circular/10/2020

Dated : 21.05.2020

Dear Parents

Warm Greetings !

Hope you and your loved ones are keeping safe in this challenging time of Corona Virus and Lockdown. MMPS firmly believes that with positivity and right attitude we can overcome these difficult times also.

However, you as parents can make the best use of this opportunity by spending quality time with your children. Most parents today are working from home even in this lockdown situation. But they are required to be a little more cautious as their absence of communication with children despite working from home along with the sudden home-bound restrictions can trigger aggression and hyperactive behavior in them. Another concern is that in today's scenario teenagers have easy access to smartphones and are already registered and hooked onto social media. Spending too much time on social media rather than personal contact or conversations with friends and families is a matter of concern. We understand that the 'Online Classes' are the need of the hour for the students but keeping a track of their social media usage is very important.

Our teachers at school keep guiding them from time to time but since the students are spending maximum time at home right now so your positive interaction with them will try and reinforce our guidance in a more effective way.

MMPS truly believes that with cooperation and understanding, we can work towards our common goal of building a promising future for our children.

Take good care and STAY SAFE

PRINCIPAL
