Deteriorating Air Quality Conditions in Delhi

Dear Parent,

In view of the rising air pollution levels in Delhi which is a cause of concern for all, we appeal all the parents to restrain their children from undertaking any outdoor activity. In such worrisome air quality situation prevailing in and across Delhi, outdoor activities and exposure to polluted atmosphere can further have long term detrimental effects on the health of our children. The poor air quality leads to many chronic respiratory diseases and Asthma.

It is advisable to adopt preventive approach to safeguard your child's health including using of masks till severe pollution condition persists.
